EL-SIE-2

Monitor the environment you live and work in with the EasyLog EL-SIE-2.

Overview

Monitor the environment you live and work in with the EasyLog EL-SIE-2. Advanced onboard software means there is nothing to install on your PC or Mac – simply connect the logger with a USB cable and use your web browser to configure the device and view, analyze and download your data. It really couldn't be easier. The bright and clear display shows current readings and device status at a glance, and the product is supplied with a bracket for secure wall mounting. EL-SIE-2 uses standard AAA batteries and typical battery life is over 1 year. The

Operating Principle

The EL-SIE-2 applies OEM sensing and signal-conditioning architecture for reliable field measurement, with digital/analog outputs suited to plant control and data-logging systems.

Key Features

- Temperature & RH Logger
- -18 to +55°C / 0 to 100%RH
- Stores over 1,000,000 readings
- Use with a PC or Mac
- Programmable alarm thresholds
- Data can be uploaded to the EasyLog Cloud

Benefits

- Expands Tetracon Lascar Electronics portfolio for Pakistani process and environmental customers
- Supported with OEM datasheet or Tetracon-compiled technical sheet
- Local supply, commissioning and after-sales support from Tetracon

Typical Applications

Environmental Monitoring, Cold Chain, Facilities, Laboratories

Technical Specifications

Product

Model: EL-SIE-2

Manufacturer: Lascar Electronics
